**CERTIFICATION OF POOL/SPA ANTI-ENTRAPMENT  
COVER INSTALLATION**

Effective January 1, 2007, Swimming Pool and Safety Act of 2006 (Assembly Bill 2977) requires the following:

Whenever a building permit is issued for the remodel or modification of a single family home with an existing swimming pool, toddler pool, or spa, or the remodel of an existing swimming pool, toddler pool, or spa, the permit shall require that the suction outlet(s) of the existing swimming pool, toddler pool, or spa be upgraded so as to be equipped with an anti-entrapment cover meeting current standards of the American Society for Testing and Materials or the American Society of Mechanical Engineers (ASME/ANSI A112.19.8).

Prior to final inspection, an inspection will be required to ensure compliance with the above requirements. As an alternative to draining the existing swimming pool, toddler pool, or spa, the property owner may choose to complete and sign the certificate below attesting compliance with the above-noted requirement.

**CERTIFICATION**

I, \_\_\_\_\_, hereby certify that I am the owner of the property  
(Print Name)

located at \_\_\_\_\_,  
(Site Address)

and that the suction outlet(s) of the existing swimming pool, toddler pool, or spa is equipped with an anti-entrapment cover meeting the current standards of ASME/ANSI A112.19.8.
